

## Lot Vineyards To Tarn Gorges: A Bicycle Your France Guidebook (Isbn)

Bicycle near the Lot River and through the Tarn Gorges as they wind their serpentine journeys through the spectacular and historic settings of southwestern France. This exceptional book guides cyclists through an area that for 25,000 years has evolved a civilization based on community and family. Eighteen routes (4 with alternates) are mapped in detailed color with elevation profiles and exacting, step-by-step directions. There are 234 color photographs for visualizing surroundings. The routes are loops that end where they start. This concept is to stay overnight in one place for a week and get to know something more about that place and the people who live there. To increase the value of your precious vacation or holiday time, the guide helps you anticipate what to expect, thus reducing travel stress, and manage costs. To expand your scrutiny, the guide includes 49 notes on history, geography and nonhuman creatures.
