

## 2012 and the Rise of the Secret Sect

Thousands of years of writing are thought to predict world changing events. 2012 and the Rise of the Secret Sect unveils the truth behind the prophecies and shows which predictions are true and which are false. It uniquely ties Mayan writings with sources that have never before been tied together to prove the inevitable events of the next decade. 2012 and the Rise of Secret Sect includes Talmudic interpretations, Catholic prophecies, Hindu predictions, Islamic interpretations, Buddhist prophecies, Hopi traditions, the I Ching, Orthodox prophecies, the Bible, New Age hopes, Nostradamus, ancient Chinese prophecies, the opinions of scientists, and even prophecies related to Barack Obama. Since the first edition in 2009, world events have already aligned with at least 20 predictions in the hard cover copy of the book. Many more events will as well. This is THE 2012 book with the highest known predictive success rate.
