

The Great Unraveling: How to Survive and Prosper in the Coming Global Depression

The Great Unraveling may scare & depress but this must read will help you survive and prosper. Barry H. Minkin predicted the current global recession in his 2003 address to the World Future Society (www.minkinaffiliates.com). He now anticipates a global depression. The world economy is beyond recovery and can no longer be rebooted. Minkin's accurate predictions prompted Critical Factors to name him a candidate for guru of the decade. He was a guest on Larry King Live and featured in other international media. Unraveling first provides a concise narrative describing how we got here, how much worse it will get, and why economists and other pundits don't get it. Minkin then uses his 40 years of real world experience as a global management consultant including 10 years with Stanford Research Institute to guide the reader past anger to insightful actions and policies that can protect our investments, businesses, jobs, society and country. **BARRY HOWARD MINKIN** Barry Minkin, futurist, global management consultant, author and professional speaker has been featured on Larry King Live, Tech-Nation, Smart Money, Money Talk, Everybodys Business, The Paula Poundstone Show and The Wall Street Journal, The New York Times, Fortune and United Airlines Hemisphere. The economic newsletter Critical Factors proclaimed Barry Minkin is very much in the running for guru of the decade. With over 35 years as a global management consultant, including 10 years with Stanford Research Institute (now SRI International), Minkin has consulted with scores of Fortune 500 and growth companies across most industry sectors, as well as government and various trade associations. His insights into the company specific factors that determine success in the real world have allowed him to accurately develop market forecasts and strategies for his clients. As his global

reputation for accurate forecasting grew, he was asked to publish his forecasts in the Corporate Times in Silicon Valley. Minkins regular monthly column contained dozens of specific predictions. Barry was Professor of: Advanced Marketing and Industry Strategy, Executive MBA Program, St. Marys College, a Lecturer in Strategic Planning, University of California at Berkeley, and Marketing Professor at Canada College. He holds a BA from Hofstra University and an MBA degree from the Bernard Baruch School of the City University of New York. He has received numerous awards, including the American Society for Training and Development Achievement Award, and a Presidential Citation for Innovative Employment Strategies. He is a very popular and sought after keynote speaker for organizations worldwide. His book Future In Sight - 100 Trends, Implications & Predictions That Will Most Impact Business Into The 21st Century (Simon and Schuster) provides an amazing record of hundreds of his accurate predictions. The book received critical acclaim and sold very well globally. Econoquake: How to survive and prosper in the coming global depression (Simon & Schuster) presented the fault lines in the economy that made an economic downturn inevitable. Minkins current book The Great Unraveling: How to Survive and Prosper during the Coming Depression (In-Sight Press) is expected to be a best seller. 2020 Foresight will be published in 2013.
