

Bird neighbors: An introductory acquaintance with one hundred and fifty birds commonly found in the gardens, meadows, and woods about our homes,

Not to have so much as a bowing acquaintance with the birds that nest in our gardens or under the very eaves of our houses; that haunt our wood-piles; keep our fruit-tree free from slugs; waken us with their songs; and enliven our walks along the roadside and through the woods, seems to be, at least, a breach of etiquette toward some of our most kindly disposed neighbors. Birds of prey, game and water birds are not included in the book. The following pages are intended to be nothing more than a familiar introduction to the birds that live near us.
