

Bookworms Anonymous Vol. II

The women are gathered again! Bookworms Anonymous is a non-traditional reading group established in 2000, comprised of seven women in Michigan's Upper Peninsula. They meet monthly to share a gourmet vegetarian meal and discuss and swap books. Part memoir, part cookbook and part celebration of words and reading, Bookworms Anonymous Vol. II contains many of the same things found in Vol. I: reading group meetings, anecdotes, book reviews & recipes. A delightful read for any book lover, Bookworms Anonymous II is packed with great reading recommendations and insightful conversation from seven savvy readers. Book club-friendly recipes are a delicious bonus! Now, I'm off to the bookstore... - Kathleen Flinn, author of *The Sharper Your Knife, the Less You Cry* and *The Kitchen Counter Cooking School* A warm celebration of two of life's most vital ingredients--books and friendships. - Ellen Airgood, author of *South of Superior* and *Prairie Evers* A love letter to reading, beautifully rendered, and with all the warmth and fun and closeness of your favorite book club on that perfect meeting night. - Robert Kurson, author of *Shadow Divers* and *Crashing Through* Author Interview What inspired you to write Bookworms Anonymous? I've wanted to write a book for as long as I can remember probably since I saw the first book and realized what it contained inside. For years, no matter how hard I tried, I couldn't conceive of one viable book idea.

Our reading group was formed in November 2000. Around 2007 or 2008, I started taking notes about the meetings as my way of capturing the witty comments and hilarious conversations we had at the meetings. Whenever I ran into friends who weren't part of BA, they asked me what the group was reading, what I was reading, and what was the best book I'd recently read.

They also asked about the menu selections.

As I told and retold some of the funnier stories about our meetings, I realized there are probably a lot of people out there who love to read, who would enjoy reading about our particular group. We live in a very unique corner of America, too Michigans Upper Peninsula and I incorporated quite a few anecdotes from our culture up here. Living here presents economic challenges, and were so geographically isolated its virtually impossible to commute to a town with any sizable population. Most of us Yoopers (those who live in the UP) hold down more than one full-time job just to make ends meet. I always enjoy learning about obscure cultures, and I wanted to share my own obscure culture in this book. How was Bookworms Anonymous received by the women in your reading group? They loved it the first time they read it! We are a group of seven women, with ages spanning 35 years, so we naturally have differing interests and opinions, but we all love reading. Each Bookworm was pleasantly surprised to learn Id been surreptitiously recording their comments and logging the books we were reading, and the positive reviews and support I received from each Bookworm as well as their spouses, friends and relatives was overwhelming. Many people who know the Bookworms said I captured each of their personalities within my pages, and that was my main goal. Hearing this was inspiring and reassuring. How long did it take you to write Bookworms Anonymous? It took one hockey season to write the first draft. I outlined each chapter from the notes Id taken during meetings, and writing the chapters came easier than Id dreamed. My husband helped by pouring wine and being quiet while I escaped into my own world every night the Red Wings played. After I had the first draft down, I approached my sister Jen and fellow Bookworm Angie (also my high school English teacher) to read through it and give me some feedback, and they both loved it. We edited it a bit, then passed it around to the remaining

Worms so each one had a chance to suggest changes. It was a grand collaborative effort.
