

Law and Jurisprudence in American History: Cases and Materials (American Casebook Series)

Originally published in 1980, this text was the first casebook in the field of American legal history. It encouraged the formation of the modern discipline of American legal history, sought to create a canon for the field, and is now regarded as a classic compilation. There are two main alterations or additions to this edition. The first is a reworking of the slavery materials in Chapter Four, substituting the testimony of the slaves themselves. The second major change in the book is the addition of materials regarding the impeachment and trial of President Clinton.
