

Islam in Historical Perspective

Islam in Historical Perspective organically integrates the history of Islamic societies with a discussion of how Muslim scriptures, laws, moral values and myths have shaped the lives and thought of individual Muslims and various Muslim communities from the rise of Islam until today. It provides introductory readers with a large body of carefully selected historical and scriptural evidence that enables them to form a comprehensive and balanced vision of Islam's evolution from its inception up to the present day. It offers in-depth discussions of intellectual dialogues and struggles within the Islamic tradition.
