

Kim & Kris: What Went Wrong and Why It Matters

Why did the hottest power couple of the moment, Kim Kardashian and Kris Humphries, have the hottest wedding of the year and then suddenly have the hottest divorce a mere 72 days later? This essay, brilliantly written by Gossip Writer Jamie Kay, goes into the details with panache and style. This essay is about marriage and divorce but more importantly about celebrity and how we forget that sometimes those same celebrities are people just like us, ones that have the same foibles and the same regrets as we do. The wit crackles as the particulars of their relationship are explored and just what it was that drove him apart.
