

Italian Alphabet Flash Cards

This ebook is intended for the subway commute, those few minutes between classes, or a serious study session. Lugging flash cards can be a real hassle, so my hope is that these electronic cards will make learning the Italian alphabet more enjoyable. For reference, this ebook includes a list of the letters and their Italian names. The electronic flash cards are arranged with the letter appearing first and the name following. If you wish to study a set from names to letters, jump to the end and proceed backwards through the set, beginning with the names and flipping to the letters.
