

Lets Take Back the Island: tales of an itinerant chef

This personal diary of my exploits as a chef is meant to stir up conversation about what is really important. When it comes down to it; we all got to eat. In some respects it is a resume of how my cooking knowledge was built, but it doesn't tell me what it was built for. My culinary career expanded into experiencing beautiful places and meeting wonderful people. Hopefully, it will show how important the neighborhood chef is in the dialogue of economic development. This book is dedicated to them.
