However, getting a grant isnt as simple and straightforward as this. Every grant has an associated qualification set and unless you fulfill the qualifications, the chances that you will get the grant are rather bleak. This book takes you on a ride through all the steps that you need to follow and do correctly to get a grant.The first thing worth considering is whether you really need a grant. You must realize that you have other options like loans and entitlements to consider. The book helps you make this choice. Once you are sure that you need a grant, you need to research about grant requisition and related trends for your state. Once you have gathered all the information, you need to make a project summary, decide upon a budget, submit the proposal to the concerned department and follow up on the results. The book gives an elaborative discussion on what you need to do right in each of these steps. Finally, no matter what you take a grant for, use the grant wisely and make a good utilization of the money granted to you. Order your copy today!
