

Charlotte Powers 1: Power Down

Charlotte Powers is fifteen years old, overloaded with superpowers, and ready. Ready to start adventuring, ready to fight evil, ready to sort things out. There's a problem, though. Not with her powers, she has super strength and super agility and phase-shifting, a combination that is unique even in BEING a combination; nobody else has ever had multiple superpowers. The problem is that her parents don't think she's ready for the world--or that the world is ready for her. So instead of going adventuring she's sent to a nice, normal school, ostensibly to establish a Public Identity. And that's where it all goes wrong ... Power Down is the first book in the Charlotte Powers series.
