

Thats the Way the Cookie Bounces!: A foundational story to On Becoming a Lemonade Maker and a Trubute to my father.

What started out as a short story to honor my father has evolved into a mini eBook! This is the story of a man who was taken from his parents home at the age of seventeen by Hitlers soldiers, to be put into a slave labor camp. At the end of World War II, when the Allies liberated the death and slave labor camps, my father immigrated to Montreal, Canada, where he became a strong part of the Ukrainian community and where his legacy of music still lives on. He was a gentle influence on many people, and helped to create a profound foundation in my life from which I subconsciously drew my own lessons of life. It was only as I was taking the time to write his story, with the delving into memories almost forgotten, that I came to realize just how much of an influence he had in my life! Ive made some interesting emotional connections between what my father and mother went through during World War II which played out in my life as a child and continued to affect me as an adult. I see this mini book as a sort of prelude to the book On Becoming a Lemonade Maker. Having come out of the end of the tunnel of the difficulties in my life, I was drawn to and urged to write in order to share some of my perspectives and lessons. Since my parents past affected mine, I felt it was only fitting to release this as part of my foundational story to the book On Becoming a Lemonade Maker. For families who have gone through very difficult times, and for the individuals who are trying to make peace with their own pasts, this little book may help to shed some light into their situation and help to prepare the ground in your hearts to better delve into On Becoming a Lemonade Maker! (Available on Amazon and Barnes and Noble!)
