

The Infects

Stuck in the wilderness with a bunch of other juvenile delinquents on an Inward Trek, it doesn't seem that things could get worse for seventeen-year-old Nick Nero Sole. But they do. Overnight, Nero's counselors turn into flesh-eating maniacs and start chowing down on his fellow miscreants? Like a monster movie come to life. As in any classic monster flick worth its salted popcorn, colossal carnage sends survivors rabbiting into the woods while the mindless horde of infects shambles, moans, and drools behind. These kids have seen the movies; they know the rules. Unfortunately, knowing the rules isn't going to be enough. *The Infects* is a genre buster; yes, it's a fast-paced gore fest, but it's also an incisive commentary on the evil that lurks within each of us.
