

Pathfinder Complete Guide to Mountain Biking Austin and San Antonio and Central Texas and The Texas Hill Country

Some of the best trails in the state of Texas are found in and around Austin. And they are also found in our book *The Pathfinder Guide to Mountain Biking Austin, San Antonio, Central and The Hill Country*. 24 trails, in fact, from as far north as Valley Mills to as far south as Kerrville. Each trail contains a review and trail summary. Reviews always provide important contact information including: phone numbers, websites and locations. Then the summary describes, in detail, exactly what to expect on each trail. Trail composition, difficulty rating, and trail markers are all considered. Finally, each review provides a locator map and written driving directions making it that much easier to find the trails. Once you've read about the trails, you can then look over the easy-to-read, 2-color maps and decide if it looks right for you. Trail mileage markers, important landmarks and trail direction arrows are all included. Our maps, by-the-way, were made using GPS technology. Never again will you get lost.

Austin happens to also be the epicenter for terrific mountain biking. Located on the eastern edge of the Texas Hill Country, most of the Austin area trails have serious reputations! And some of the Hill Country trails are legendary. Whether you are looking for extreme single-track or easy-going jeep road, *The Pathfinder* has 24 of the best trails in Central Texas to choose from.
