

The Law of Privacy and the Media

A team of barristers from Five Raymond Buildings, the media, entertainment and human rights chambers, have come together to write this timely consideration of the rapidly developing law of privacy in England and Wales. The book considers how the law protects the publication of personal information without undermining the fundamental principle of freedom of expression. The Law of Privacy and the Media is essential reading for all those who act for or against the media, as well as all those with a general interest in the subject.
