

Primal (Seren Hearts Book 1)

Kara Paul has an average boring existence. She attends college, hangs with friends, works, and surprisingly adores her parents. Despite her happy life, she is restless and longs for something more, dreaming of adventures from stories and the big screen. When strange men invade her home one night to steal her away, everything changes as she is now the victim of all her imaginings. Logan Andrews has a past that he strives to hide. He lives for the next mission and has moved past the love he lost. Content to live alone he never imagined that the little spitfire in his care would tempt him to get involved again. Logan seems to have Kara's best interests at heart but he's hiding secrets that could send her world crashing down around her feet. Can a primal warrior and an innocent power ever live together in peace? Find out in: Primal Discover a world beyond our own.
